# Problem Statement

Keep track of due dates for assignments/deadlines can be overwhelming, oftentimes you may forget and this could cost your grade. My solution is to create an app to remind and keep you on track of your assignments.

# Details

In my experience so far in college, I have had tons of due dates pushed in my face. I want to create an app that will allow me, and remind me about upcoming due dates so I don't forget and potentially cost myself points off my grade.
